

High quality spray line PROJECT

SURFACE ENHANCEMENT TECHNOLOGY LEADER

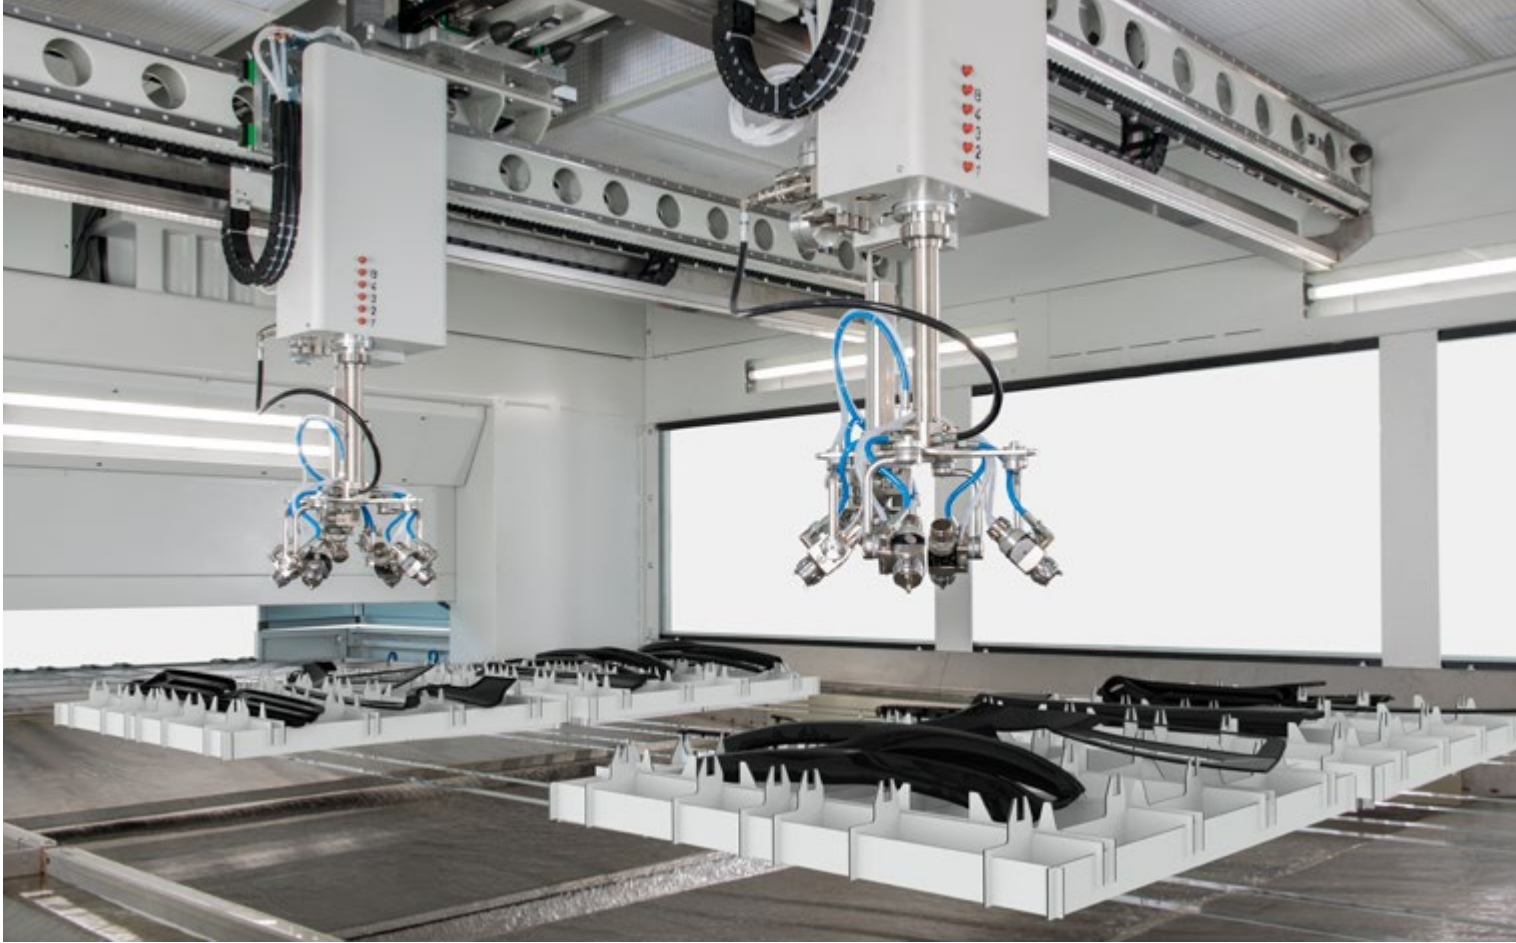

Cefla Finishing - worldwide leader in the finishing of wood, plastic, metal and building products - has spent the last 50 years asking Customers worldwide "What are you looking for when investing in finishing automation?" The answers have come in hundreds of forms: **the widest variety of coating, drying and wrapping machines for panels, profiles, moulded and machines parts for all industrial sectors.** Cefla Finishing works close to its Customers, thanks to a widespread sales network made up of branch offices and a large number of dealers, as well as production plants in Italy, Germany, USA and China, together with productivity, high quality, efficiency and low environmental impact.

Surface enhancement technology leader

COATING AND HIGH GLOSS ON PLASTIC COMPONENTS CAN BE HANDLED BY CEFLA THANKS TO THE LARGE NUMBER OF SPRAYING SYSTEMS WORKING TODAY. COATING CAR BUMPERS, CAR INTERIORS, BOXES, FRAMES, SHELLS, SPOILERS, RIFLES, ETC. IS THE SECTOR WHERE WE CAN SHOW THE EXPERIENCE WE HAVE ACQUIRED.

ANY COATING WOULD BE POSSIBLE AND UV AS WELL, HIGH GLOSS AND TOP MAT SURFACES AS EXTREME FINAL RESULT.

Cefla control of robots and spraying machines is deep and unique, based on several years of experience.

Example of a process.

- ✓ Loading
- ✓ Cleaning and/or flaming
- ✓ Spraying
- ✓ Drying by hot air and/or UV
- ✓ Inspection
- ✓ Unloading

We are ready to show you in our Lab, live demo as well as to analyze complete solutions to satisfy your production requirements, starting from the raw material to the completely decorated and coated parts (as per your design).
